Stud Service Agreement**

Bitch's Registered Name: _____

AKC Number: _____

Microchip Number: _____

Under the terms of this agreement, Courtney Roxby, an owner of the above Stud Dog, and _____, Owner(s) of the Bitch agree as follows.

The Owner(s) of the Bitch will provide the Stud Dog Owner with a copy of the following prior to breeding or shipment of semen:

- A Signed copy of the stud contract
- A 3-generation pedigree
- Copy of the AKC registration
- OFA hip and elbow certification
- CERF or current ophthalmologist report done within the last year
- OFA cardiac certification or Cardiac report from a board certified cardiologist
- Brucellosis test report within the last 30 days*
- Current immunization record
- Photograph

* Brucellosis testing is not required when using artificial or surgical insemination procedures.

The stud fee shall be \$1200.00. \$250.00 (non-refundable breeding fee) is due at the time of the breeding. The balance of \$950.00 is due within two weeks following the whelping of the litter. The Stud Dog Owner will not sign litter registration until the entire amount of Stud Service is paid, including any reimbursement of any breeding related expenses.

If frozen semen is to be used then there will be an additional charge of \$250.00 / per breeding unit plus all expenses involved in shipping the semen. These fees are due in advance of the breeding. The Stud Dog Owner must be notified in advance to make any arrangements for these types of breedings.

All expenses related to collecting, shipping and inseminating the Bitch are the responsibility of the Bitch Owner(s). A credit card number will be sent to the vet used to pull semen from the Stud Dog prior to breeding.

The Owner(s) of the Bitch is responsible for transportation of the Bitch to and from the Stud Dog Owner's residence. If the Bitch is shipped for breeding, all expenses for shipping to Myrtle Beach International Airport will be paid in advance by the Bitch Owner.

Ten days board is included in the Stud Service Fee. If the Bitch is maintained at the Stud Dog's property more than ten days the Bitch Owner(s) agrees to pay an additional \$15 per day. Uncontrollable or destructive behavior will be cause to return the Bitch to her owner(s).

Breeding will occur as soon as the Bitch will allow and then subsequently every 36 – 48 hours for as long as the Bitch will stand, unless otherwise instructed by the Bitch Owner(s). Any Veterinary fees related to the Bitch's care (smears, artificial insemination, health certificate, etc.) and maintenance is the responsibility of the Bitch Owner(s). Should the Bitch become ill, the Owner(s) of the Bitch authorize all immediate and necessary care and will be responsible for any and all veterinary charges.

If the Bitch is bred to multiple sires for any reason, whether accidental or intentional, the stud fee will be \$200 per puppy in addition to the non-refundable breeding fee up to a maximum of \$1200 (this maximum includes the non-refundable breeding fee). The Owner(s) of the Bitch must provide DNA results of all the puppies, in addition to the stud fee, before litter registration is signed. The Owner(s) of the Bitch must notify the Owner of the Stud Dog of multiple sire breedings.

A litter is defined as three or more puppies. If no litter results from this mating, or less than 3 live puppies are alive at 1 week of age then, no further payment will be due and there are no further obligations on the part of either Party.

The Bitch Owner(s) holds the Stud Dog Owners harmless for any and all illness/injury/death, which may occur in the course of this contract (during or as a result of this breeding). Under no circumstances is the Stud Dog Owners responsible legally or financially for any illness/injury/death which may occur during or after this breeding.

No puppies from this breeding will be sold to puppy mills, pet shops, high volume breeders, commercial breeders, resale operations or for laboratory purposes. Sale of puppies in this manner will damage the Stud Owner's reputation. If it is discovered that a puppy or puppies have been sold in this manner, damages of \$2500 per puppy will be owed immediately to the Stud Owner. Any reasonable attorney's fees incurred for the recovery of puppies out of this situation, as well as costs related to the collection of the fine, will be paid by the Bitch Owner(s).

Owner(s) of the Bitch agree that all puppies from this breeding will be placed with a pet or show contract. The contract must specify that if the buyer is ever unable to keep the puppy, the puppy will be returned to the breeder or sold only to a home approved by the breeder. In order to help support the quality of the breed, all pet puppies must be sold under spay-neuter contracts and registered on AKC Limited Registration. Any puppy sold with full AKC registration requires the written authorization of the Stud Owner.

Owner(s) of the Bitch agree to notify the Stud Owner in writing if the former becomes aware that any puppies from this breeding display genetic defects or significant illnesses during their lifetimes.

Owner(s) of the Bitch will notify the Stud Owner in writing regarding any titles earned by puppies from this breeding.

The Bitch Owner(s) will provide the names, addresses, phone numbers and AKC names and numbers of all puppy buyers to the Stud Dog Owner.

If the Bitch Owner(s) fails to fulfill the conditions of this contract, the Stud Dog Owners will have the right to pursue monetary damages of not less than \$5,000 and reasonable attorney's fees.

AFTER READING THE ABOVE TERMS AND CONDITIONS, WE FIND THEM MUTUALLY AGREEABLE AND ACCEPTABLE.

RESULTS:

Based upon the exam dated 1/21/2017, this dog has been found to be free of significant observable inherited eye disease and has been issued an Eye Certification Registry Number which is valid for one year from the time of the exam. The following breeder option codes were noted:

D3A: PERSISTENT PUPILLARY MEMBRANES - IRIS TO IRIS

Breeder Options are clinical observations that may be inherited but do not represent current potential compromise of ocular comfort, vision or other ocular functions.

Paw Print Genetics™ performed the tests listed on this dog. See the Laboratory Report for interpretation and recommendations based on these findings. The genes/diseases reported here were selected by the client. Normal results do not exclude inherited mutations not tested in these or other genes that may cause medical problems or may be passed on to offspring. These tests were developed and their performance determined by Paw Print Genetics. This laboratory has established and verified the tests' accuracy and precision. Because all tests performed are DNA-based, rare genomic variations may interfere with the performance of some tests producing false results. If you think these results are in error, please contact the laboratory immediately for further evaluation. In the event of a valid dispute of results claim, Paw Print Genetics will do its best to resolve such a claim to the customer's satisfaction. If no resolution is possible after investigation by Paw Print Genetics with the cooperation of the customer, the extent of the customer's sole remedy is a refund of the fee paid. In no event shall Paw Print Genetics be liable for indirect, consequential or incidental damages of any kind. Any claim must be asserted within 60 days of the report of the test results. Genetic counseling is available at Paw Print Genetics.
